

Manufacturer's Warranty

Steiner Industries gloves, apparel, screens, blankets, curtains, accessories and all other products in the Steiner catalog are warranted to be free from defects in manufacturing only. Because applications vary, the user must determine product suitability for a specific application and the user assumes all risks in connection therewith. A careful analysis should be made before selecting protective equipment for each particular application.

Steiner Industries reserves the right to inspect the product(s) to determine repair or replacement of any defective products.
