Description of Date-Coding System Prior to 2008:

Code Description (or attach appropriate documents)____Here is a sample date code: D122 L1 B2 0000160128F. Only the first four characters indicate when the product was manufactured. The D corresponds to the month of the year (A=January, B=February, C=March, D=April). The second and third characters refer to the day of the month (12 being April 12th). Finally, the last 2 refers to the year it was made, so the year would be 2002 (or 1992 if the can is very old). This can was made April 12, 2002. Other examples would be J91 (October 9, 2001), F223 (June 22, 2003), and L30 (December 3, 2000).

Description of Date Coding System 2008-present:

On the bottom of the can, the date is stamped. It follows the standard month/day/year format. For example, 01/22/10 would be interpreted as January 22, 2010.

Placement on Containers On the very bottom of the can

Shelf Life: Seymour of Sycamore guarantees its products for two years from the date of manufacture.
